Bazaar to Be Held from January 27 to February 5, with Twenty-nine Conneils and Their Friends Giving Support, Will Add to the Building Fund of the Organization.

Another new fraternal building is promsed for Washington.

Following the Masons, Elks, Knights of Pythias, Odd Fellows, and similar organizations, the National Union will build a handsome structure, which will serve as the headquarters of the twenty-nine or more councils in the District. In architectural beauty and completeness of equipment it will rank with the best of

the fraternity structures here. The new building has been in contemplation for some time, but the officers have held back definite announcement until the strength of the organization would more than justify the undertaking. Recent additions to the membership of the society have been numerous, it is explained, recent class initiations being characterized by the initiation of 1,400 new members. It is now declared that a National Union building is necessary.

The structure is to be built of buff trick and stone, and will be four or five stories high. It will contain a suite of rooms for the District officers of the organization, and will have meeting quarters for the several councils in the lar rights and to all the safeguards sur-National Capital. One of the features rounding them. of the building will be a large hall, in which entertainments and large assemblies will be possible.

Finances Are Assured.

Finances are in sight. Already the building fund is of good size, and a fair, to be held in the old Masonic Temple January 27 to February 5, is expected to swell the fund. Practically every council in the District has shown interest in the building project by workand they will each furnish some feature of the entertainment on the programme. Outside of the relation between the building and the coming fair, much interest centers in the bazaar as a result of

Jack Johnson has a double. Like the prize fighter, the double is ond of being arrested. This weakness for sojourning behind jail bars was instrumental in his rapid ascendency from dark oblivion to the white glare of the limelight, in which the famous mittnandler basks.

The double was arrested last night. For a time his physical resemblance to Johnson baffled the police. Only the knowledge that Jack Johnson was not in Washington convinced the police that hey had not arrested the famous ebonmed knight of the roped arena.

It happened this way. About two weeks ago complaint was made at police headquarters by property owners that lead, orass, and iron fixtures in vacant houses | Monday. n various sections of the city were beng stolen. Report followed report in apid succession.
